

SKV - 30SKV146 - Sensor de temperatura de gases de escape 30SKV146

Sensor de temperatura de gases de escape.

El sensor de temperatura de gases de escape 30SKV146 mide la temperatura en el sistema de escape, optimizando el rendimiento del motor y ayudando a cumplir las normativas de emisiones. AUDI A3 SEAT Altea SKODA Octavia II VW Golf VI Passat; 03L906088J

A composite image featuring a stethoscope and a metal connector. The stethoscope is positioned in the upper right, with its chest piece and tubing visible. The metal connector, which has a threaded section and a flange, is located in the center. A large, light gray gear graphic is overlaid on the background, with the letters 'SKV' printed in white across its center. The entire scene is set against a plain white background.
